MOATAZ MOHAMED ABO EL MAGD

Frontend Developer · IT Student · Arabic-first Web & Mobile

mtzm225@gmail.com | +20 128 009 0726 | Alexandria, Egypt | Portfolio | LinkedIn | GitHub

Frontend developer and Information Technology student based in Alexandria, Egypt. I build Arabic-first web and mobile products with React, Next.js and TypeScript, with full-stack work across Supabase and PostgreSQL. Open to junior roles, internships and freelance collaboration.

EXPERIENCE

Online Moderator & Content Specialist

Present

- Moderate digital communities and support online sales, customer service, and platform engagement.
- Create digital assets and educational technical content using AI-assisted tools.

Branch Manager / Operations Lead

- Led daily branch workflows and team coordination while maintaining service and sales standards.
- Earlier Warehouse Operations Assistant experience included inventory tracking, stock organization, and accurate records.

PROJECTS

SANAD · Academic Ecosystem

Arabic academic platform connecting a library, student community, project hub, AI assistant, and administration.
